

Samoyed (\$SAM)

Meme Coin created on Ton Network

Samoyed (\$SAM) is a meme coin operating on the Ton blockchain. This project aims to combine the playful nature of the meme coin ecosystem with the secure and scalable infrastructure of the Ton blockchain, creating a community-driven cryptocurrency. Samoyed leverages Ton's high speed and low transaction costs to provide a seamless experience for its users.

Vision: To establish a fun, community-focused, and strong meme coin in the crypto world.

Mission: Samoyed aims to go beyond being just a meme coin by growing its community, creating a valuable and entertaining ecosystem.

- Total Supply: 21 billion \$SAM
- Community: 50%
- Reserve (Locked to 01/01/2030 until): 25%
- Development and Team: 10%
- Investors: 10%
- Marketing: 5%

- Q4 2024: Launch, token distribution, and initial community events.
- Q1 2025: Listing on decentralized exchanges and the first burn event.
- Q2 2025: NFT integration and activation of staking features.

Samoyed (\$SAM) aims to establish a strong and vibrant community on the Ton blockchain, securing its place in the crypto world. With its fast transaction capacity, low costs, and community-focused approach, Samoyed (\$SAM) holds great potential for the future.
